California Facts and Trivia

Land Area of 155,959 sq. mi (403,934 sq. km) Length Approx. 650 miles (1050 km) by 260 miles 420km

Population 36,132,147,

California's Mount Whitney measures as the highest peak in the lower 48 states 14,495 feet summit.

Death Valley is recognized as the hottest, driest place in the United States. It isn't uncommon for the summer temperatures to reach more than 115 F (46C) degrees.

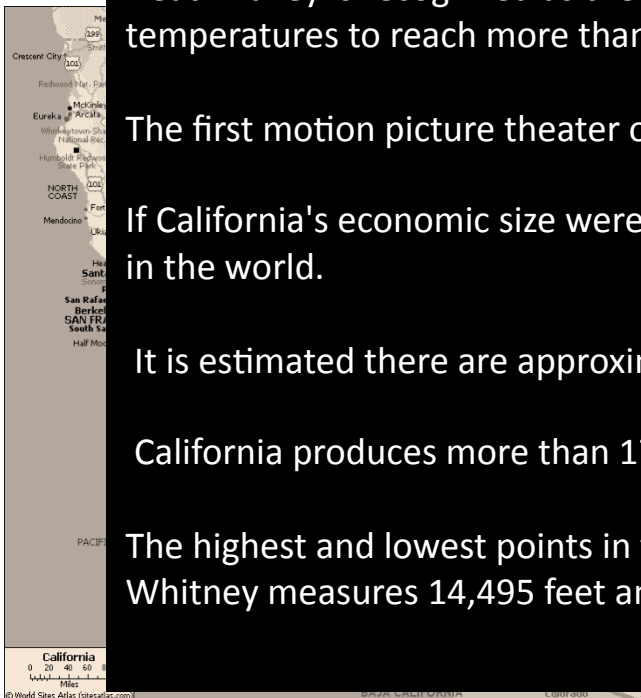

The first motion picture theater opened in Los Angeles on April 2, 1902.

If California's economic size were measured by itself to other countries, it would rank the 6th largest economy in the world.

It is estimated there are approximately 500,000 detectable seismic tremors in California annually.

California produces more than 17 million gallons of wine each year.

The highest and lowest points in the continental United States are within 100 miles of one another. Mount Whitney measures 14,495 feet and in Death Valley 282 feet below sea level.
